Variance tracking  
Time/motion studies  
Interviews]
```

Operational
Assessment

Flowcharting
Variance tracking
Time/motion
studies
Interviews

Elements Included

Elements included are utilized if deemed necessary.

Enovasis consultants can help you identify the patient population to target.

Internal and external benchmarks are utilized when available.

Additional

Clinical Protocol Adherence:

→ Compare resource use to protocol

→ identify variances and trends (by physician and/or severity)

→ Result is identification of practitioners' adherence to accepted protocols

Protocol Item

Phys	Dept	Pts	CT	Aspirin w/ in 24°	Carotid Doppler
A	Med	14	78%	98%	42%
B	Neuro	25	80%	75%	68%

Example: Quality/Protocol Adherence
